

2015 Network Guide

UPMC HEALTH PLAN

Selecting the right health insurance plan is important. And remember that selecting a plan also means that you are choosing a network. The network refers to the specific hospitals, facilities, physicians, and other providers participating with the plan. Understanding the network is important so you know where you, and your employees, can go for health care needs.

UPMC Health Plan offers three different provider networks. All of our networks guarantee full in-network access to UPMC doctors and hospitals as well as many local community doctors and hospitals.

Here is a brief description of each network:

- **The UPMC Partner Network includes UPMC providers and UPMC-owned facilities in UPMC Health Plan's 28-county service area and other select facilities within Erie and Allegheny counties.** To offer plans in the Partner Network, your company must be located in Erie or Allegheny counties.
- **The UPMC Standard Network includes providers in UPMC Health Plan's 28-county service area.** This network includes all UPMC providers and UPMC-owned facilities. Many community providers and facilities are also included. To offer plans in the Standard Network, your company must be located in any of the 28 counties in our service area.
- **The UPMC Premium Network is the broadest network.** The UPMC Premium Network includes providers in UPMC Health Plan's 29-county service area. This network includes all UPMC providers and UPMC-owned facilities. Many community providers and facilities are also included. To offer plans with the Premium Network, your company must be located in the 29-county service area.

To get the full list of the hospitals included in each network, turn to the appropriate pages of this guide.

Remember, if your employees need emergency care, their medical care will be covered no matter which emergency department they go to.

Your employees also have peace of mind when traveling 100 miles or more away from home for business or for pleasure. Their UPMC Health Plan coverage gives them access to Assist America — the Health Plan's global emergency assistance partner. If an emergency comes up, Assist America provides immediate access to doctors, hospitals, pharmacies, and other services. The service is available 24 hours a day, 365 days a year.

Finding a participating doctor or facility

Your employees receive the highest benefit when they use doctors and facilities in their network. The online provider directory includes hospital affiliations for each participating doctor. They can search for specific providers by following these steps:

Go to: **www.upmchealthplan.com/find**

Select Coverage Type: Coverage Through Your Employer

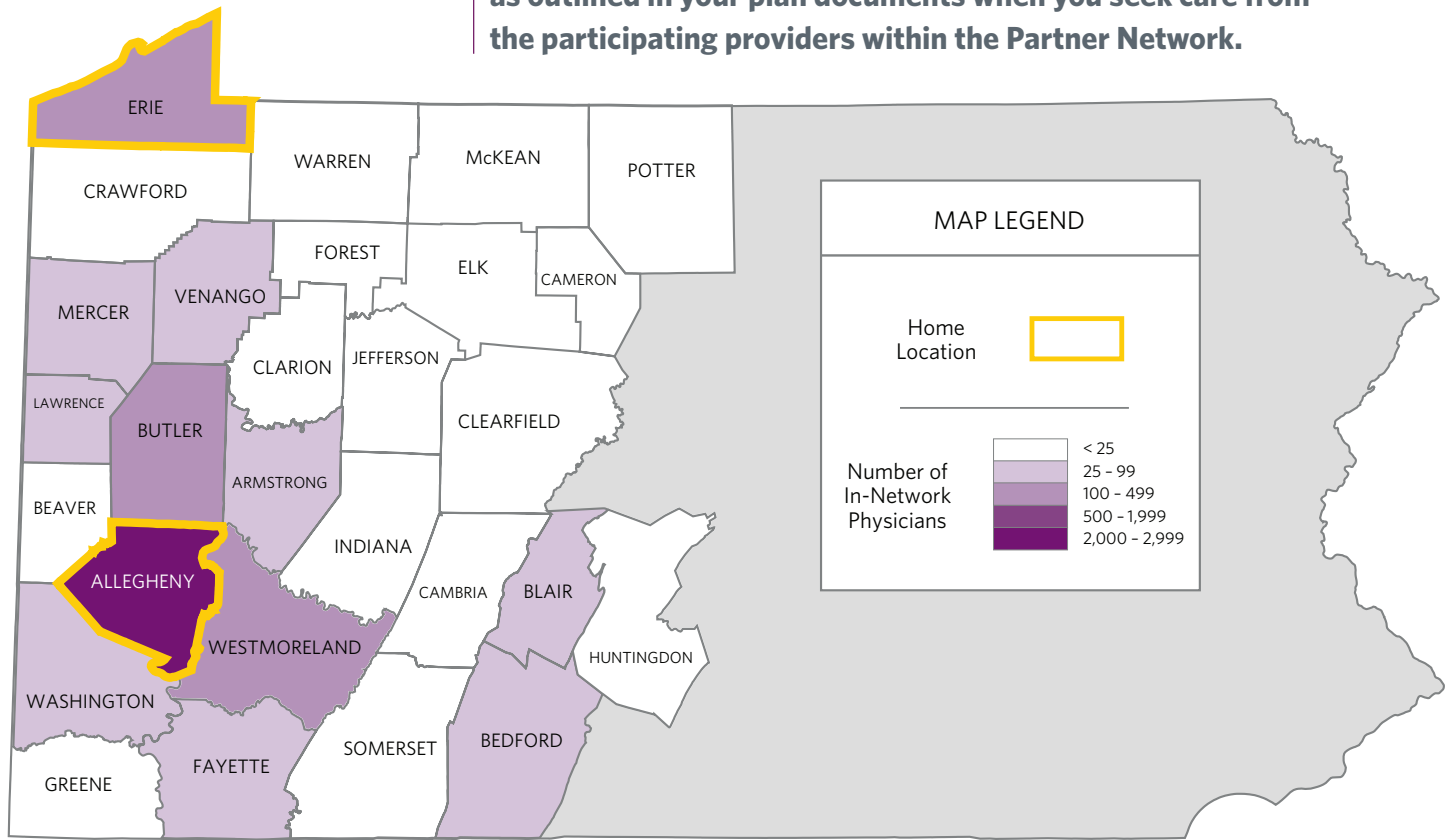

Select Plan Name: Choose a specific plan or network name

Enter a specific provider or practice name or search for all. You can also filter by type of provider, specialty, languages spoken, and more.

UPMC Partner Network

To be eligible for the UPMC Partner Network, your employer must be located in Erie or Allegheny counties.

The UPMC Health Plan Partner Network consists of doctors, hospitals, and other medical providers located within the 28 counties in our service area, shown below. You will be covered as outlined in your plan documents when you seek care from the participating providers within the Partner Network.
